VOLTAGE: 12V DC

SIZE: 8" or 12" Diameter Beacon

HOUSING MATERIAL: Black ABS Plastic Housing

FLASH PATTERN: MUTCD Single Flash

FLASHING: 50 times per minute

LED COLOR: Amber or Red

WORKING MODE OPTIONS: 24/7 or Bluetooth controlled via 'TT Solar'

Android App (Timer and Dimming Function)

BATTERY: Lithium Battery 12V/7200mAH

CONTROL BOX SIZE: 15" x 13.75" x 1.75"

MOUNTING BRACKET: 6" L x 12.5" H

VISIBLE DISTANCE: >2500 Feet

COMPLIANCE: MUTCD Standard Type B High Intensity

WORKING TIME: After one full charge, 5-7 consecutive days

BATTERY LIFE SPAN: 3-5 Years

NOTE: These can also be made as AC Powered and will work 24/7 only

FREQUENTLY ASKED QUESTIONS

Q: What beacon color options are there?

A: Amber or red beacons are available.

Q: Does the beacon come with a pole?

A: No, our beacon pricing does not include posts. However, we do offer various pole options.

Q: Would any pole work with this beacon system?

A: These can mount to any signpost but come with hardware to mount to standard traffic posts (u-channel, Telespar or round straight).

Q: Do you offer AC powered beacons?

A: Yes! We do offer an AC powered beacons in addition to our solar powered option.

Q: What is the working mode?

A: The beacons will work 24/7 out of the box. They do have an option to be timer controlled with an android device.

Q: How long will they last on a full charge?

A: The beacons will last up to 12 hours on a full charge.

Q: Can this work with a flashing sign?

A: Yes, this beacon system can work with a flashing sign but will require a custom setup and there will require a lead time.

Q: What type of housing material does the beacon have?

A: This beacon is made of ABS plastic; however, we also have a metal housing beacon as an option
